

ANSHU RAJ

Arrah, Bihar | +91 8789407443 | anshuraj12012007@gmail.com

Portfolio: anshuraj1201.vercel.app | LinkedIn: linkedin.com/in/anshuraj1201 | GitHub: github.com/AnshuRaj1201

PROFILE

Computer Science undergraduate and web developer with hands-on experience designing and deploying responsive, interactive websites using HTML, CSS, and JavaScript, backed by a strong foundation in Python, REST APIs, and data-driven applications. Built and deployed a complete personal portfolio site featuring custom animations, a live contact form, and full front-end/back-end integration. Seeking a Web Developer Intern role to contribute front-end development skills while continuing to grow across full-stack and AI-integrated web projects.

EDUCATION

B.Tech in Computer Science & Engineering — Shri Shankaracharya Technical University — 2028 (Currently Pursuing)

TECHNICAL SKILLS

Web Development: HTML5 • CSS3 • JavaScript • Responsive Design • REST APIs • Git & GitHub • Vercel Deployment

Programming & Data: Python • Pandas • NumPy • Matplotlib • C language • java • C++ • Keras

Tools & Platforms: FastAPI • MongoDB • OpenCV • SQL • Jupyter Notebook • EDA • Data Preprocessing

PROJECTS

Personal Portfolio Website — HTML, CSS, JavaScript

Designed and built a fully responsive personal portfolio from scratch, featuring custom cursor-tracking animations, an interactive contact form, scroll-triggered UI effects, and live GitHub stats integration. Deployed live on Vercel.

Live site: anshuraj1201.vercel.app/

AI Study Bot — FastAPI, MongoDB, Groq LLM API

Full-stack study assistant delivering contextual answers with persistent chat history; deployed on Render.

Repo: github.com/AnshuRaj1201/AI-Study-Bot

AI Disease Predictor — Python, Scikit-learn

ML-based model that predicts likely disease from symptoms and medical data to support early diagnosis.

Repo: github.com/AnshuRaj1201/Ai-Disease-predictor

Object Detection (YOLO + OpenCV) — Python, OpenCV, YOLO

Real-time object detection with bounding boxes on a live camera feed.

Repo: github.com/AnshuRaj1201/Object-Detection-with-Ai

Data Science Bootcamp Project — Pandas, Seaborn, Matplotlib

Performed exploratory data analysis, visualization, and insight generation on a real-world dataset.

Repo: github.com/AnshuRaj1201/Data-Science-Bootcamp-Project

CERTIFICATIONS

Artificial Intelligence — Codec Technologies — July 2026

Agentic AI — IBM SkillsBuild — June 2026

DevTown Bootcamps — AI Disease Predictor • Data Analytics • Image Recognition • Object Detection

STRENGTHS

Problem Solving • Analytical Thinking • Quick Learner • Team Collaboration
